

INSTRUCTIONS

We would like to let you know that each window is re-sizable (as you move your cursor to the bottom right corner of the window, an arrow appears and you can resize the window using the arrow) and that you can change the place of the windows to have a layout of your preference – as well as to layer them if need be for different constellations.

Please note that the windows can also be closed and re-opened by clicking the cross (X) at the top right corner. We recommend that after you close a window, you make its size as small as possible so that it does not take up too much space on our ‚stage.‘ While you can choose, play, pick, read and combine as you wish, here come our suggestions for possible ‚moments‘.

To start with make sure that: all windows are closed and the sound of your computer/laptop is on.

One

1. Open the window **CHOOSE A VIDEO 1**. Make it big enough to see the choice of videos.
2. Open the window **PICK A SOUND**.
